

Military Sealift Command

PM-5 JLOTS

Team Sealift - **Ships**, People, Innovation

What MSC Brings to JLOTS

- Ships (Surge, RRF or Commercial) & your equipment
 - MSC Area command opcon
- MSC Reps for the exercise/operation
 - Civilians & Reservists
- MSOC Van (Mobile Sealift Operations Center)
 - normally staffed by Reservists
 - secure & non-secure comms, interface w/JLCC

US Government-owned Ship Types

MSC Surge Ships

Navy owned, but operated by a commercial company

- All ROS 4, layberthed USEC & USGC
 - LMSR have no limitation on use, however only used after no viable commercial alternatives
 - FSS have legal limitations on their use
 - No general cargo lifts (no waivers nor exceptions)
 - Only used to move exercise and crisis cargo

US Government-owned Ship Types

MARAD Ready Reserve Force (RRF) Ships

- Dept. of Transportation-owned
 - operated by MARAD commercial operators
- Most RO/ROs in ROS 4, layberthed all US coasts
- Activation:
 - Contingencies require USTC approval
 - JCS exercises require USTC approval

PM-5 Cargo Project

- DoD peacetime cargo not carried by liners
 - Off route/ not interested
 - Nature of Cargo
 - Unique
- Practice going to War
 - Exercises: JCS, USTRANSCOM, Services
 - Contingencies
- Go to War
 - Ramp up: Surge Staff, Reservists
 - MCC reporting
